EMPLOYER
SOFTWARE HOUSE

04/2023 - Present   *Karachi , Pakistan*

As a part of a reputable software house, I had the opportunity to work on a diverse range of projects and gain extensive experience in both frontend and backend development. I actively contributed to the development of web applications using technologies such as Laravel PHP, HTML, CSS, Bootstrap, jQuery, and MySQL. In the frontend development role, I created responsive and visually appealing user interfaces using HTML, CSS, and Bootstrap. I utilized my skills in JavaScript and jQuery to enhance user interactivity and create dynamic web elements. Collaborating closely with designers and UX specialists, I ensured seamless integration of design concepts into functional web interfaces. In the backend development role, I leveraged the power of Laravel PHP framework to design and implement robust backend functionalities. I worked extensively with databases, particularly MySQL, to store and retrieve data efficiently. Utilizing my knowledge of SQL, I developed optimized database queries and implemented data validation and security measures.
